

JOB DETAILS

‘Do you have
what it takes to
work at Falcon?’

At Falcon, we pride ourselves on continuous innovation to develop engineering solutions and services that improve people's lives. Because that's what really matters and we're here for our clients when it counts the most. Falcon was established in 1975 and has been operating out of Hawke's Bay for the past 46 years. Falcon's daily mission is to bring to every project a global perspective, with exceptional electrical engineering solutions, with the collective purpose of making a difference.

About the role:

- Signing off certificates of compliance as required for the site.
- Installing and wiring of all electrical devices in new and existing industrial buildings.
- Assisting with any repairs or maintenance as required.
- Following instructions and Health and Safety information given by senior site members at all times.

Skills and Experience:

- A current New Zealand Electrical Registration and Practising License
- Capable of running your own jobs according to budgets and managing teams
- Must have industrial site experience, preferably with breakdowns and installations (AC and DC motors, VSD's and PLC)
- Must be currently living in NZ with a valid work VISA
- Valid Site Safe would be beneficial but not essential
- Have a good work ethic and be able to work well as part of a team as well as autonomously.
- A strong understanding of workplace Health and Safety and be able to direct others.
